+ Zalka

## SUMMARY

electrical engineering emphasis on biomedical with over 2+ years of advances knowledge in engineering, biology and electronics. Proficient in data analysis using MATLAB and other computer programs. I am a talented, dynamic and trustful person. I am an effective communicator. I have a proactive attitude in finding positive ways to engage with people.

## EXPERIENCE

### Electrical Engineer Assistant

#### Technology Groups

~ 2020 - 2021 + Adonis

-electrical installations in various high quality buildings to international and GCC standards including substations. Knowledge in reading engineering design drawing.  
-electrical drawings include details such as network loops, user-defined dimensions and ratings, component location relative to adjacent grid lines, and material schedule

### Electrical - Internship

#### MG elevator

~Jun 2019 - Sep 2019 + Fanar

-Inspect lifting and conveying devices, like elevators and other similar mechanisms  
-to verify conformance to laws ordinances regulating design, installation, and safe operation.

## EDUCATION

### Bsc (honor) 3.05 Electrical Engineering

[Lebanese International University](#)

~ 2015 - 2019

### CERT DELF B1

[Institut francais Du Liban](#)

~ 2017 + Badaro

## SKILLS

### Electrical Skills

- Low current system
- GSS grounding
- AutoCAD 2D 3D
- Basic Revit MEP

### Engineering

- MATLAB
- Proteus
- JAVA
